Being a family-run business means we understand these values.

Family values are the foundation of a happy and healthy home. Whether it's spending quality time together, showing respect or teaching important life lessons, prioritising family values can bring a sense of fulfillment and joy and these are the same values that we prioritise and have built our business on.

We strive to build long-term relationships with our customers and are always here to help. So if you have a question, just let us know and we will be happy to help.

Product Quality

Our commitment to quality is unwavering. We continuously strive to improve our products and processes to ensure that our customers receive the best possible products and service. We stand behind the quality of our products and are proud to provide them to healthcare providers and patients in the United Kingdom.

Safety Features

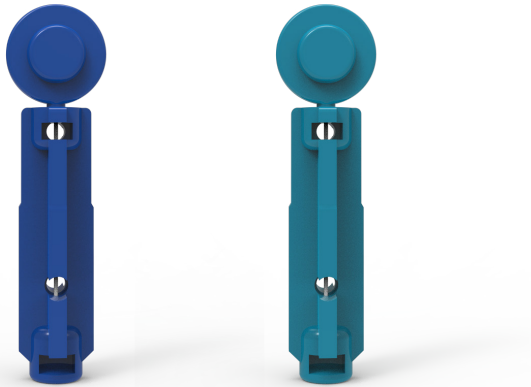

We prioritise safety and injury prevention with our medical products especially when it comes to needles. Needle stick injuries are unfortunately a daily occurrence, but our products are designed to reduce the risks.

Design

We understand the importance of product design in the medical industry. Our team works with manufacturers who use the latest technology to create products that meet the needs of our customers.

Apollo Twist Cap Lancet

**Price comparison April 2024*

Model	Gauge	Depth	Colour	PIP Code	Prescription Price	Package
AMTL-2800	28G	1.8mm	Dark Blue	366 0412	£3.80/box	200pcs/box
AMTL-3000	30G	1.8mm	Teal	424 1857		

Universal and Compact Design

- Our standard twist cap lancet features a universal design to fit all standard lancing devices whilst maintaining a compact design to reduce the plastic content.

User Friendly

- Easy to remove protective cap - simply twist off.

Pain Reduction

- Manufactured with an ultra-sharp tri-bevel needle to reduce discomfort.

Cost Effective

- The most cost effective twist cap lancet available on the national drug tariff.*

Apollo Pressure Activated Safety Lancet

Minimum Pain

- Ultra-sharp tri-beveled needle with high speed penetration.
- Dual spring design for a smoother firing of lancet.

User Friendly

- Ergonomic design for easy handling.
- Lancet fires upon contact pressure.

Safety

- Immediately retracted needle after firing to reduce the risk of needle stick injuries.
- Needle is always covered.
- Locking function prevents the lancet being reused.

Prescription

- Products that are available on prescription can be ordered with the PIP Codes provided.
- All prescription products are stocked at national wholesalers who deliver to pharmacies everyday, so our products are always available to patients quickly.

Order Direct

- You can order products directly from us by visiting our website.
- We also supply our products in carton volumes so we can offer our products at the lowest pricing.
- We offer free delivery on all orders.

Speak to Us

- If you are a supplier and would like to stock our products.
- If you would like to request product samples.
- If you are looking for specific product specification that we do not currently stock.

NHS Supply Chain

- Products that are available via the NHS Supply Chain can be ordered through your NHS SC customer account.
- We aim to have more of our products available via the NHS Supply Chain as the product frameworks renew for the NHS SC in 2025.
